ALL-IN-ONE

MORE EFFICIENCY WITH
FAST COLOUR
PRINT SPEED

Employ a speedy worker that knows all about multi-tasking

You know what it's like. You need one machine to copy. One machine to print. One machine to scan and so it goes on. Where will you find the space in a small or home office? Most importantly, how much will it cost you to buy all of these essentials? With Brother's new range of compact colour all-in-one printers, you'll get a fast, high quality machine that prints, copies, scans and also faxes without the fast lane price tag.

Super efficient

All the printers in our range will produce professional results time after time, in no time at all, thanks to features like the impressive 16 pages per minute colour and mono print speed and hi-speed fax.^ Which means you'll get things done faster.

Plus with extra features such as wireless and ethernet connectivity, direct USB printing, secure print and a range of flexible scanning options (to USB, PDF, FTP, network and email), there's certainly no compromise on quality.

Super savings

With printing, copying, scanning and even faxing all in just one handy machine, you'll save space in the office and money too, as you only need one machine instead of three or four. And, as they're network ready too, everyone in the office can share just one printer. To keep costs down further, each printer has a colour restrict feature, which means that only designated users can print in colour. Each machine also comes with a free 1000-sheet colour toner in the box, so you'll save money from the word go.

* Fax not available on the DCP-9010CN

Make light work of office work with a range of handy features

The perfect solutions for small businesses. Our handy machines can take care of all your office needs with professional-quality results, low running costs and lots of other time-saving features.

Save time
with fast 16ppm colour and mono print speeds and direct printing from USB

Saves money
as one machine does it all. And as they're all network ready, everyone can share just one machine

Less refilling
with large 250 sheet paper tray and 35 sheet automatic feeder to handle multi-page documents

Go green
with a range of printers that meet Energy Star and Blue Angel environmental standards

Space-saving technology

The technology inside our 9000 series all-in-ones allows you to enjoy high-resolution laser-quality printing from a more compact, space-saving printer. Which makes them the ideal choice for small businesses.

Awarded 100 out of 100 by the Ethical Company Organisation for the third year running

Green and clean

Our models use non-hazardous materials and are designed to be recycling friendly to meet the renowned Energy Star and Blue Angel environmental standards. As a company our environmental and ethical standards are second to none. All Brother consumables can be recycled for free at our award-winning plant in North Wales. We were even awarded 100 out of 100 by the Ethical Company Organisation for the third year in a row – the only printer manufacturer to achieve this.

And our commitment to the environment now includes sponsoring 4 square kilometres of Amazon rainforest in partnership with Cool Earth, which protects endangered areas to help combat global warming.

Little extras to make you feel good

No one wants to feel 'stranded' so in the unlikely event of something going wrong with your printer we're happy to take control. You're covered by a 12 month warranty plus 24 hour online support and a dedicated helpline during office hours.

Cleverly designed consumables

Get the most from your Brother printers by using specifically designed consumables. When the toner runs out simply replace it with the one specially designed for use in your model – it's long-lasting, great value and knows exactly what your model needs to run at its very best.
